Hello!

I am seeking to add value to a few in the field of Chiropractic Medicine and Holistic Healing practices in the Lakewood & Denver metro areas. By offering educational classes on d?TERRA Essential Oils, I'd love to help bring in more clients to their business and continue the natural education path that is already in action. I have been an Essential Oil Lifestyle Educator for the past 3 years and have a great passion for empowering others.

I'll be honest, most chiro's and holistic healing businesses I know do NOT want multi-level marketing in their business 1. because they are solely focused on growing chiropractic and wellness (it is more than a 24/7 job....don't get me started..) 2. They know it takes a lot of effort and they don't want to have to force even more sales on our patients. 3. They don't want to sell a product unless they truly believe in it.

So the short of this story: I'd love to do the WORK for you on educating your office and clients on how to use essential oils paired with your healing modalities. I'd like to make it easy for you to use the oils and see how they work, teach classes for your clients and bring more in, and if you're interested - I'd love to help you bring in more checks!

Looking forward to connecting!
