

Hi. My dog's name is Neptune.
He is an approx.
6 year old 30 lb.
rescue who looks just like Sprocket from Fraggie Rock.
I live in a fantastic doggy-friendly bungalow collective near Paramount Studios.
It's a very secured accumulation of 5 bungalows and two above-garage apartments with a shared
courtyard, BBQ area, garden, and long long walkway/doggy promenade.

We selected our location for my next live TV show on Saturday, November 7, 2015 at 9 AM which will air
on PBS station KLCS TV 58. We will build a TV set in the meadow at the South Coast Botanic Garden
that you can see until January 31st as it'll be your resource center for all things El Nino. Tickets are all
gone for the studio audience so have a viewing party from home then come down after the show as I'll
hang around until noon. We found a male orange cat 3-4 weeks ago, very affectionate, not neutered, not
microchipped. We are taking him to a shelter tomorrow where he will probably be put down (he has FIV)
PLEASE email me ASAP if u lost a male orange cat My name is Matthew and I'm a professional bassist

with 90% success) and he's very friendly with other dogs and people. He does NOT have his shots, so you'll have to get him his shots and he's begun a deworming process, so you will also have to continue his medication on that. A small rehoming fee will be assessed to ensure the safety & security of this puppy (will discuss with you, it's minimal). I got him about 3 weeks ago from a friend who needed to rehome him because she was moving, he is a litter of 3 pups. I unfortunately cannot keep him since I work full time and go to college as well but decided to take him in until I found him a good home. I am not gonna give him to just anyone so if you're interested, please give me a brief description of why you should have him. I want the very best home for him with a family who will spend quality time with.
