Audio Cave Recording Studio focuses on The Artist and strives to capture what it is that makes YOU unique. We know how hard you've worked customizing your equipment, your sound and your performance, and as musicians - we get it. It's our job to get out of the way of your creative vision, and help you achieve the sound you've always wanted, at a budget you can afford. But with our 30 years of experience in professional recording studios, we can certainly help you get there if you need help.

If you want to sound like another cookie cutter band, using samples and digital amps on your equipment - in place of using time-tested recording techniques, some of the industry's most famous microphones and outboard equipment - then Audio Cave might not be for you. If you need to work in a beautiful and fancy location for photo ops and selfies, and work with interns - then Audio Cave might not be for you. If you want to come to a studio to make the best music of your life, roll up your sleeves and get a little dirty and sweat a little - then Audio Cave is DEFINITELY for you.

We believe that classic recordings are classic for a reason. They were made with skill, EXPERIENCE and care, and with the desire to create the best sound using the best equipment of the time. Well, some of that timeless equipment like tape machines, mixing boards and hardware definitely contributed to all of that, and this is why Audio Cave Recording does the same thing.

Some might call us old-fashioned, and we'll say THANKS. And so will you when you hear what we can do.
