SuccessTeam/Mastermind/Sher/procrastination/accountability :-) :-) :-)

Success Team or Mastermind "graduates" sought. What do I mean by "graduates"?

...you are a "graduate" if you write to do lists, distribute them(not afraid to show them to a private group), ask for feedback(not afraid to ask a private group), want regular (weekly?)meetings(virtual?)...

What do I mean by "Sher without fluff"?

There will probably be "minimal hand holding" to try to figure out what you want if you know what you want but you refuse to say.

....you must be able to show up at a regular (weekly?)meeting(virtual?) and tell everyone: "I failed to do what I said I would."

(we all fall short but few can admit it)

each member will have equal time (so each member's turn will have equal time)...(barter style)support

e.g. I want my support person to do something(to be specified... e.g. read a script....or e.g. listen to how my day went..or e.g. cause my mirror neurons to behave like I

want them to... or?)

For more information please email me above. I will be anonymous. I will not email you back.

Thank you for your success!
