I found a very friendly hyper black lab mix today. He is underfed. I'm doing everything I can to find the owner but I can only keep him shortly. I'd just like a good home for the little guy! He looks like a black lab mix. He is very underfed. He is neutered and has no chip. He is very sweet and friendly but very very very hyper! I would keep him myself but he is too playful for my dogs and I have to keep them separated. No charge. No fee. Completely free to a good home. Big back yard. Sweet family with no other pets would be perfect for him! He is big tho. And probably about 2 years.
