Hi there,

I'm an actor and an aspiring dialect coach, and seeking accent samples of Native Americans, Native Hawaiians/ Hawaiian Pidgin speakers and Aboriginal Canadians. I'm presently gathering voice samples that'd be used for the development of dialect coaching materials in order to teach actors how to put on authentic and realistic accents for various productions mainly in the US and the UK. One of the biggest motives behind this kind of work is fighting off gross cultural stereotypes you so often encounter in English Speaking movies and TV programs. Please get in touch with me if you're willing to lend your voice to the project. Thanks!

I work voluntarily with the Accent Help development team in the interest of dialect research. You can find more about our work here - www.accenthelp.com

Tom

No timewasters please! Only reply if you're genuinely!
