

# Booking Photo Booths for 2016

## Wedding Photos

You have a vision for your wedding day and we want to help you bring it to life. Our photojournalist style of wedding photography takes its cue from editorial reporting styles and focuses more on candid images with little photographer interaction.

## Senior Pictures

We believe your senior pictures should be all about you, and our talented photographers will work tirelessly to create stunning portraits that show off your personality and tastes right along with your signature look.
