

# Granite amp Wrought Iron Dining Room Table (2500. USD)

Location **Missouri**  
<https://www.genclassifieds.com/x-711103-z>

This is a custom piece that I put together several years ago, after having sold granite & marble counter tops for the last decade. The table base, which is solid wrought iron (not hollow, that's how it's able to be bent) was custom, hand-crafted, bent and welded together. It itself, is a work of art.

The 3cm. (21 sqft.) granite top is called "Golden Nebula" and is one of the higher category type granite (Cat. "D" \$90-\$100 per sqft.). It has been one of my favorites pieces in my home and regarded by everyone as incredible. You cannot buy this at ARHAUS, or an interior design shop like the IDC, off Page.

I am selling this for local and or arranged pick up only and you must have the proper resources to move it. I estimate the table top to weigh 350 lbs.( +/- ) itself and the wrought iron base would be 200lbs. (+/-). Professional movers or, a granite fabrication company are the only people who should be attempting to move this as, they understand how stone must be lifted, carried AND transported. Please email with any questions.

I will delete the ad as soon as it's sold and no longer available.  
 I WILL DELETE THE AD, AS SOON AS THE PIECE IS OFFICIALLY IS.
