Dependable third party vehicle inspections (Diamondhead, MS)

Location **Mississippi**
https://www.genclassifieds.com/x-711183-z

Buying a vehicle can be a frustrating process. If you are like a lot of consumers out there looking to purchase a vehicle, but are not sure what you are looking at when it comes to automobiles, then making a confident decision can be difficult. The services I offer help to close that gap in confidence and make it easier for you to purchase a vehicle.

I have been in the automotive industry for many years. I am capable of looking at and listening to a vehicle and determine if it has any issues, has had any accidents, or has any bad repair work, or if the car has been abused in general at all. I can investigate to see if the work that has been done to the vehicle has been completed efficiently and not been butchered or left needing more attention. I have a keen eye for good and bad work and I am very detailed so I see what most people will not. I offer thorough inspections and can offer a report of my findings. My reports will furnish all of my findings and detail out everything from the smallest flaw to things that need immediate attention.

In addition I also offer vehicle history reports included in my inspection price!! That is a $35-50 expense alone if you were to purchase a vehicle history report on your own.

I will never tell you whether or not you should or should not buy a vehicle but i can aid in your decision making process by providing you with the necessary information that will help your confidence level in knowing exactly what you will be buying...or not buying!

It is a small price to pay for that added peace of mind when buying a vehicle!

*Prices starting at $75 for the first inspection including history report!
*Prices vary on location of vehicle and how many vehicles you request to be inspected.
*Payment due at time of service.
*I can also offer pricing services. I can help to determine if the price of the vehicle is fair according to the current market.
