Hello, my cat had BEAUTIFUL, kittens. They have great personalities. They're very social little kitties and are used to people. They cuddling and playing so they would be a great option for a home with children or other pets. They purr as soon as you start petting them. They are litter box trained and eating dry food. They haven't been to the vet, but are disease free because they are kept inside a clean home with their mom. We are kindly asking a \$50 rehoming fee to ensure the kitties go to a permanent home where they will be loved and responsibly taken care of. If you can't afford the \$50 then you probably can't afford to take care of a kitten. Email me if you're interested.!:)
