In search of a FREE female kitten/young cat.

The kitten must be female and good with other cats and 100% litter box trained.

I'm not looking for a specific color but I do want a kitten/young cat with a good personality. That wants attention and love and affection.

She will see the vets and she will get shots and worm and flea meds and spayed if it hasn't been done. And also she will be microchipped and only be a house cat so I promise u she will be going to a good home and she will be in good hands.

I'm looking for a female kitten/young cat ASAP. Thanks. Please email me back if u have a female kitten/young cat to offer for FREE. Thanks again.

And like I said she will be seen by the vets and spoiled and loved a lot and given a lot of attention and.
