For sales is a 1993 300zx twin turbo, runs and drives good, not a perfect car by any means. The car needs to be painted, the body is on good shape, interior has black leather the drivers seat needs some repair. Miles are just over100k. Still has factory dual coolers, after market blow-off valves, and I guess I should mention it's an automatic.. I don't have to sale the car so no need to call or text with a rididules offer, thanks. I will send pic if.
