Musical growth is like riding a bike- stop pedaling and it's hard to keep moving, let alone get to where you want to be. Whether you're stuck in a rut or just getting started, a good teacher can help you make the breakthroughs you're looking for.

Beginners \* Intermediate \* Advanced

Rock, Blues, Jazz, Reggae, Funk, etc.

Beyond my regular teaching methods, lessons are always focused on what the individual students goals are.

Extensive and well-rounded teaching and performing experience, including performing with grammy winners. Recently featured teacher/host on Guitar World Magazine mobile app "Lick of the Day".

Bachelors of Arts in Music from Florida International University in Miami, FL.

References available if needed.

Give me a call, and I will be happy to discuss any questions or that you may have.

How many times have Word, Excel and PowerPoint given you problems that have taken hours of your time or given you poor results?

If you need an expert to help you solve a problem with Excel, Word or PowerPoint, describe the problem to me and I'll get back to you with an answer for a very reasonable rate. I have 5 years experience on an MS Office help desk, and I've seen just about every problem imaginable. If you need staff training, customizations or help with an office software project, let's see if my expertise can make your work more efficient.

I'm open to long-term, on-call relationships with local businesses and individuals who can use my practical, hands-on expertise to make their work go more smoothly.

Are you looking for a violin or viola teacher?

I am a violinist and violist with over ten years experience working with students of all ages and levels.

My approach to teaching is to help the student acquire a solid foundation of technical skills which they can readily apply to their music pieces.

I patiently ensure that the learner's use of the body is relaxed and efficient, concepts are well understood and that skills are thoroughly learned.

I use a combination of Suzuki, Sussmannshaus, and traditional method books, and I tailor the lesson materials according to each student's needs.

Most importantly, I make sure they play with a beautiful sound, and that music-making for the student is fun!

Lessons are typically in my South Philadelphia apartment - Hourly lessons are \$55; children who are beginners may take 30-minute lessons at \$40.

Thank you and I hope to hear from you!
