Need someone with a 16' trailer that can pick up a lumber load for me at Lowes in Edmond(2nd St) and bring to my house 2 miles away. Order is already pulled, just need to have them load onto your trailer and then haul to my house which is 2 miles from Lowes. I will then have to unload it. Truck must be able to pull a decent size load, a half ton will work I have done it many times, but it will be a pretty good size load. Shoot me a bid if you could help me out. Would need this done today sometime or first thing in the morning.
