

## NEEDED Expert in Matting Art (Garden District)

Location **Louisiana**  
<https://www.genclassifieds.com/x-713556-z>

There are two reasons for matting my artwork; it enhances my artwork thus increasing desire (= sales) and it keep glass off the paper. A mat gives needed space so the eye can zero in on my work and it does not get cut off in the frame.

I am interested in Paper Mats ONLY. Paper mats, made of paper pulp, are the most inexpensive and used with a lot of frames that come with the mat. There are three typical types of mats you can get: paper mats, Alfa mats, or rag/linen mats.

My collection consists of hundreds of watercolors, loose acrylics and sketches (some digitography on giclee' as well). Common sizes 9 x 12, 11 x 20, 24 x 30

Searching for multi color mats with at least 2 inch border.
