GenClassificats.com LARGE RED CANNA LILY TUBERS (171 USD)

Location Indiana https://www.genclassifieds.com/x-713738-z

3 paper-ream boxes of LARGE, healthy, just dug bright red Canna tubers. 3-6 eyes per tuber. OR, buy an ENTIRE box of about 25 or so for ONLY \$15.00. Hummingbirds LOVE them. We use them as a "privacy screen" and plant about 25 end-to-end along the edge of the patio after danger of frost in the Spring in full sun. These grow to 6 feet tall. They are not fussy and we only water them when the ground is REALLY dry. You must dig them up after the first frost in the Fall, as they will freeze and die over the winter. You must store them in a garage or basement where they won't freeze until Spring. Call or text. (In the Spring the price will be \$3-\$5 per tuber.) Thank you.
