I am fairly new to photography, and would like to build a portfolio so I can start working for an agency or start making it as my profession. I am looking to explore my interests in all categories of photo-shoots, and would love to find models who are flexible and willing to give suggestions as to what photos to take. I currently work full time, so my availability during the week would most likely be evenings, but my weekends are usually pretty open. I will only keep any records of the photos for myself and will not publish them anywhere and they are for you to keep after I have done the editing. I thought it is a good way to keep a good relationship and trust between models and photographer. I am mainly wanting to gain experience and practice because it has always been my passion. You can choose or we can discuss your apparel, but all will be under the consideration of what you will be comfortable with. Feel free to contact me if this will be your first time or even if you have had previous experience. I am new to the industry as well. It is a learning curve, and I am trying to get better at it a session at a time.

We can surely discuss the compensation after getting all the details in place.
 Feel free to email me for more questions.

In your email, if you could please tell me a little bit about your experience, and feel free to attach your photos or previous work.
