Add a high-definition video to your Yelp listing. I come to your business. Show your products in vivid HD and narrate at the same time. You can even put yourself in front of the camera and give potential customers a chance to see and hear you in a way that only you can. Tell them exactly what you want them to see and hear instead of just hoping they do. You can also use your video on your Facebook page and website. Your video comes up on Google searches instead of a plain text listing. Add it to your LinkedIn page. Upload it to YouTube. Video: Customers get it.
