I have a 9 week old female hedgehog she is a reverse pinto and very pretty. She can come with her cage (big enough for a baby but will need bigger), water bowl, food bowl, a couple toys, hide, and a cuddle sack. She is sweet does not really ball up anymore but does get a little hissy when woken up or picked up at first which is normal for hedgehogs. Asking \$225. She is worth that alone without her stuff.
