My wonderful puppy is a chihuahua mix. She is a great dog but she needs more potty training and I work too many hours. I'm not home enough for her and when I'm finally home, I have to clean a mess. I've tried training her but maybe it just wasn't enough or maybe I was doing something wrong. Other than that, she is wonderful. She'll cuddle you and she is very sweet. She's a little nippy with other dogs for the first few days but when she warms up she's super playful. I hate to see her go but I just don't have time and I'm never home. Asking a rehoming fee of 100 and for you to have experience in taking care of dogs. I'd also really like it if you have a vet already. She is about a year and a half old.

Do not contact me telling me what I'm "doing wrong" or that I'm a "horrible person" for wanting to find better for my pup. If you have something negative, keep it to yourself and stay off.
