I'm a photographer who does test shoots for several of the major modeling agencies in LA. I'm looking for good stylists to collaborate with on test shoots. I do not get paid for the shoots so the gigs will be on a TFP basis only (if that changes, I would of course compensate you on future shoots). I'm trying to get some dope new shots for my book so it will be fun and you'll get some great images for your book too. If you're interested, please shoot me an email with a link to your work. If I think your style agrees with mine and we'd work well together, I'll reply with my website and we'll go from!
