I have a 2-3 year old bearded dragon who needs to find a new home. I am starting to get out of reptiles and need to re-home her. She is a sweet girl, a little cage aggressive but once out she is nice. Eat anything and everything that she can. She is a hypo citrus. Comes with everything you need. zoo med front opening cage about the equivalent to a 30 gallon breeder (same floor size as a 40 breeder just shorter) she has sand substrate, comes with a hide, a sifter, and the bowls. \$155 Text for pictures or with.
