The Premium App is looking for a graphic designer to help with marketing materials and brand identity. We are a startup so while we are paying, we don't have a huge budget but we will have consistent work for you if your fee is affordable.

We are an events and entertainment app that will be officially launching in 2016.

Requirements

1. Adobe experience
2. Creative (we give concept, you execute vs us micro managing everything)
3. Must be in the Twin Cities.
4. Reliable (You take on a project, get it done and done on time. Entertainment is fast paced and opportunities aren't always planned. We're a new company but we've been in the entertainment field for years)
5. Wants to be a part of this (We can get anyone to design anything. We want someone excited to be a part of what we're building, if you're just looking to get the gig and move on don't even respond to this because that's not what we're looking for)
6. Understands Marketing (your designs should have a science behind them that makes everything we do big or small stand)
