Chesterfield Children's Center is an accelerated, licensed, early childhood preschool. We are currently accepting new students into our intensive Kindergarten preparatory program. Our highly successful program utilizes a winning combination of traditional teaching methods and High Scope curriculum. This curriculum is based on the belief that children will be better learners when they feel they have choice of activities to choose from in the classroom. With this philosophy, children are free to pursue what interests them, making school highly enjoyable for our students. The High Scope method is backed up with proven results through 40 years of research that shows children who receive this type of education grow up to be more responsible and successful adults. We also know very well that children need to be physically active. At Chesterfield Children's Center we make learning fun. We are very devoted to finding ways to integrate early reading and math into games that require physical movement. Chesterfield Children's Center is the perfect place to nurture those qualities. This state-of-the-art breakthrough program can work for you and your preschooler for only \$175 per week with gym, art, and music class included in this rate; also, we're adding extra activities as well. Our PreK teacher, Ms. Karen, has her masters degree in education with thirty years experience. We are also accepting younger children at very competitive rates! We are located at 16629 Wild Horse Creek Rd Chesterfield, Mo. 63005 you may also visit our web site at chesterfieldchildrenscenter.com, or you may contact us at

to schedule a tour of our fine facility. Voted best rates in west county. We look forward to seeing you, Thank.
