I have a virtual laser keyboard that I haven't touched in a while because when I bought it, it wasn't what I was looking for. It was in my backpack a for a little bit before I took it out so the box is slightly roughed up but the product works since the last time I took it out of the box. I only took it out of the box once and tested it once. If you want it message me and let me know when you can come to meet me and we can exchange there. Thanks &;
