

Freelance DesignerDeveloper Freelance DesignerDeveloper (philadelphia)

Location **Pennsylvania**
<https://www.genclassifieds.com/x-715646-z>

In this role, you will be part of a small team of on-site designers/developers who support print, digital, and outdoor activities for Global Advertising. As Designer/Developer, you will: code mobile and web banners, create templates and design content; manage assets and inbound requests, resizing existing creative according to different size and animation parameters; collaborate on concepts with senior designers, managers, and executives with urgent turnarounds; prepare files for release, ensuring accuracy, timely delivery, and thoughtful execution on all levels of development; work with remote team members, agency, and media teams and collaborate cross-functionally with other teams to keep projects on track; and manage the online asset catalogue and be able to work within a project management tool.

To be considered for the position, you must possess the ability to code quickly and accurately, extend a template design to a full online campaign, and foresee possible issues and identify solutions early. You must be able to work within corporate guidelines yet be able to think outside the box.
