

Great Pyrenees (Charlotte)

Location **Vermont**
<https://www.genclassifieds.com/x-715710-z>

I have a four year old female Great Pyrenees, who needs a herd of goats or sheep to tend to. We sold our farm and no longer have animals for her to protect. She should be in a barn/pasture with sheep or goats doing the job she was bred for, guarding her flock from predators. She is house broken and has been living in the house since we moved to Vermont. Do you know of anyone, who might be interested in having her and putting her to work or just wants a big fuzzy guard dog in their house. She would be best in a large yard with no other dogs or.
