Need a DJ, karaoke or lighting for your next wedding, event or special occasion? I have many years experience and specialize in weddings! I use only the latest, most reliable equipment available to ensure the best sound, and I have it. There are never any pauses in sound. I am clean cut, prompt and professional. I arrive an hour early to set up. I know how to get crowd participation and I am a vocalist as well. Don't settle for an ameuture on your very special day. Whatever you want to hear or sing, I have it! I have over a hundred thousand karaoke songs and unlimited music. If it's made on karaoke, I have it! I provide dj services for any event or occasion. I am not a cheap, fly by night dj. You will be getting a premium, profession service. I charge eighty dollars per hour plus eighty for setup, tear down & travel. There are alot of scam artists out there that will charge you a deposit and then steal your money! I charge an eighty dollar deposit to insure that you are serious and so that if you cancel for any reason, I wouldn't have wasted my time. I will meet you personally and provide you a legal binding contract that protects you more than me. We will go through all the details at the meeting. So many folks are booking terrible, shady djs for cheap and regret it when they show up at your wedding, reception or event and then it's too late. Your wedding, reception, birthday, convention or event is then ruined all because you didn't invest in a real, professional dj. Fact: 72% of brides say they were not satisfied with their reception.
