Hello, I am ametuer photographer that is looking to get some more exposure and more practice. Attached are some sample pictures I have and I do have a reference as well. I would come to you or meet you at a location. I do not bring props with so if you would like any, please make sure to provide them. You would have full rights to all pictures, but under the agreement that I would be able to use them in my album. I could either provide a USB for you for the pictures to be uploaded on or you bring your own. I'm not charging much to do this since I am mostly looking for exposure and more experience. Please either email me or text me at 262-sevenfour8.
