Guitarist looking to start a melodic metal band to write original pieces. I would like to do something influenced by deathcore and deathmetal, and hopefully avoid mass amounts of simplistic chugging (ex. 000-00-000-000). That being said I'm not looking to start a tech-deathmetal band either.
Basically I'm looking for some people with good attitudes (not druggies *420 friendly is fine just don't show up doing crack*) who want to hang out, write some music, and hopefully play shows come spring summer of.
