I'm looking for a surrogacy agreement that is private and involves no lawyers and no agencies or clinics. My type is A+, and I have mostly European ancestry. I love cooking for myself, family, and small dinners, hospitality, and analysis. I'm talented in music, arts, and creative thinking. I have an interest in learning Russian fluently, and I enjoy business, restaurant work, and some kinds of adventure. I'd like to have my child know they are loved and not used, and I'm open-minded about moving out of the area. My fertility is very high and is not a problem for a conception. I'd like some independence while carrying the baby to term, and aside from that and agreeing on a compensation amount, I am easy to work with. I'm 5'5", 110-115 lbs, small build, and green eyes. I ran throughout my last pregnancy, up to the week before delivery, and this photo was taken about 5 months after I gave birth to a healthy, full-term baby. I'm very health-conscious and both alternative and classic in my thinking about nutrition and care of my body during.
