Attractive and tastefully decorated affordable one bedroom vacation rental apartment in a coastal village. Situated a little over a half mile from the ocean, less than a mile from the bus stop, ferry and the center of town but 1.3 miles from the park. Except for the decorations and pictures that my wife seems to be fond of changing what you see in the pictures below is exactly what you get (at my site). A very nice clean apartment perfect for thrifty travelers like myself.

It's a little over a mile from the park road where you can bike or hike the trails. The first thing you will come to are the new hiking trails and biking paths starting a hundred feet down the road and if miles of trails don't interest you, next there is the Frazer Point picnic area that juts out on a finger of land overlooking the harbor. There is a long pier with a float attached that people fish for mackerel, bluefish and striped bass when they run. From here you'll have spectacular views of the mountains, Mark Island Lighthouse and you can watch the harbor porpoises, seabirds, osprey and of course the lobstermen pulling in the day's catch or the sail boat races from the Winter Harbor Yacht Club. The vistas are nothing less than magnificent and many have spent the entire vacations right there. I know, I spend enough time there myself. We love to picnic by the fire in the evenings. And I'm not really sure why but lobsters always seem to taste that much better there. Words can't really describe time in this place.

Whatever you desire, sightseeing, shopping, hiking, biking, kayaking and more. You can have it or get to it from here.
