Hi my name is Nisha. I am currently looking for a serious person/s who sings, produces music, plays any type of drums, guitar. One or all of the above will due as long as you're dedicated.

It would be ideal if you didn't have other obligations such as marriage and children (unless they're super supportive about you life decisions). This is only because eventually I plan to relocate back to the west coast.

If you've made it this far. Let me share a little about myself. I've been singing as long as I can remember both formally and informally. I have written all of my own material since I was 12. As well as participating in my secondary schooling's music program (including treble choir and honors choir). I'm a first alto and occasionally I sing a bit higher. I prefer to sing in the style of r&b and soul. Although, I listen to a wide range or music (too many to name, ask if interested). I have a little experience working around studio equipment and I'm in the process of saving for my own.

My short term goals are to find one or two other musicians, prefferbly with a steady income of some sort. In the long term I would eventually like to record and preform live.

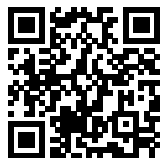

As you can tell, I'm very passionate about this. If you are too please contact me by email. In the subject line tell me what youre about (ex: sing, drum, guitar) to filter out the spam. Tell me about yourself and why you're interested.
