

Roof Shingles Loosing Granules Should you worry (Casper)

Location **Wyoming**
<https://www.genclassifieds.com/x-721036-z>

Are your Roof Shingles losing Granules?

In most cases, that's not good.

The granules are not there just to make the roof attractive. They play an important part in protecting the mat from the sun's damaging rays and keep the shingle staying sealed!

Well, you need not wonder if the granule loss is serious if you have an experienced and unbiased resource like Roofing Technical Center to inspect them for you!

Relax, we're not going to sell you a new roof !

Instead, our team of qualified asphalt shingle technicians and product specialists offer a FREE roofing shingle evaluation and see if this is really something to be concerned about and if it is, we will try to get some compensation back for you as well as provide assistance on how to temporarily fix them!

We have personally been responsible for folks just like you receiving hundreds, thousands and even, in some cases, the entire costs of a complete roof replacement!

Go to www.CashForOldShingles.com and enter promotion code P500PA for more information on our

services!
