DO NOT RESPOND IF YOU SEND ME TO SOME SITE ###
+++ I WANT A QUOTE SENT TO ME PERSONALLY +++

I have a new air compressor in my garage that i need hooked up to a 220v outlet in the corner. i have the wiring already run so i just need both ends hooked up.

I want a professional to do this work that will cut me a break on pricing as this should only take ten minutes max, if that?

If you would please email me an estimate i would sure appreciate it and i will get back in touch with the best bid.

Thank
