It's the time of year we all start thinking about cleaning our roof and gutters, it's also the holiday season. Are you sick and tired of risking your life climbing a ladder to clean your gutters every year? Are you tired of paying someone to do this for you because you just can not or do not feel safe climbing anymore? Do you have good gutters you want to protect from the damage that debris and blocked up rainwater can cause? If you answered yes to any or all these questions you may want to have me install this system for you. Some systems can cost up to \$13,000 to install. This system is a lot cheaper, strong and of good quality. Each panel comes with adhesive strip and 3 self taping screws to hold it in place. It's all you really need. I get it from a National Wholesaler everybody is familiar with and loves. Don't risk your life cleaning your gutters ever again! Matter of fact don't ever worry about your gutters again. This system is a set it and forget system, it'll be a done deal, your gutter cleaning days are over. We do, do windows & get rid of your stump problems, so don't trip. CALL ROBERT @

!!!!!!!!!!!!!!GO SEAHAWKS!!!!!!!!!!!!!!
