About me : )

I am a loving mother of 2 and I have been caring for children for 15 years. The past 8 years I have cared for children as a career not a side job. I have a degree in teaching and sign language. I decided to start a daycare to have more time with my children but it has grown into an amazing opportunity to pour knowledge into young minds. I have a deep passion for children and I consider myself very good at communicating with them on their level while still nurturing them. We are like family to every child that enters our care. Since beginning the business I have had an amazing time helping raise many children and no one has ever left our care unless graduating to preschool. In fact we have turned away many people because we won't allow our daycare to get overcrowded. I am cpr certified, and licensed and we

have a fenced in back yard, I teach with a very special curriculum that we purchase every month including reading, math, spelling, writing and sign language to all ages. My infants love to read! How many parents can say that? And lots of exercise since we have a large area to play in and we have a fenced in back yard with tons of toys! We also have a 6 speed pool that we set up and in every morning which has a 1000 ft race! Except for recesses upon request including recess at James River High School! Full TIME spot only which will fill quickly so email me for an interview asap!
