Hello!

In my search to find my neighbor's missing bird and to find the owner of a bird that was found, I became friends with someone who is also missing her bird..

She and I have created a Facebook page for people who lost their bird and/or who have found a bird.  
"Lost and Found Cockatiels and Other Bird Companions"

If you join because of my ad, please let me know..

Thank you for saving the bird and we wish you the best in finding it's!
