I'm an ambassador for Lyft. We're doing a referral program that's giving away bonuses to various cities for new drivers. The bonus for Denver is currently \$250 once you complete 50 rides. If you already drive for another ride share or limo company, you can still drive for Lyft at the same time.

Requirements are that you are 21+, have a four door vehicle year 2003 or newer, and have a relatively clean driving record. Also, you must have Colorado plates and an Colorado driver's license.

If you have previously applied to Lyft before, I can override your current application to put you on the referral list for the \$250 bonus. The rides can be completed anywhere in Colorado. Lyft also pays weekly direct deposit and you keep all tips from passengers.
