

# Lost BROWN labrador REWARD 1000 (san jose east)

My BROWN labrador got out Monday, 11/9, around 8:00 pm (per my neighbor). Last sightings were in the McGinness area, behind Pep Boys, and at Story and White Rd.

He is a very nice, LARGE (80 lbs), old dog (9 years old), named Phoenix. Brown/red in color, labrador, neutered male. He was rescued from an abusive environment so he can be quite scared and has a nervous stomach. He was wearing a red collar with our number, and his name, Phoenix. He is chipped and also is wearing his county tags. If you have a ball he will come right up to you.

The current theory is that someone has taken him in - stolen him. Please look around, see if your neighbors have a new dog. I miss him terribly.

Any help would be appreciated. Thank you.
