

Green Funerals

Location **Colorado** https://www.genclassifieds.com/x-722862-z

GREEN FUNERAL COUNCIL OF COLORADO CURRENTLY WE ARE SET UP AS A NON-PROFIT EDUCATIONAL ORGANIZATION

We will be hiring those volunteers who wish to help us get this going.

I am the founder of the Successful Environmental group Rainforest Action Network along with David Brower.

We had a campaign to inform people about not buying rainforest hardwoods for caskets. Now Im promoting biodegradable hemp caskets and shrouds.

According to a recent study, the three top heavy metal emitted by crematoriums are: MERCURY CADMIUM LEAD

There are NO safe levels for Mercury in the environment, and it causes ADD AND ADHD!
