

## Adult Cat Free to Very Good Home

Location **Delaware**  
<https://www.genclassifieds.com/x-723015-z>

His name is Sage. He just turned 8 years old and has been living in California his whole life. We recently brought him here to Delaware because his family is moving out and couldn't afford to take care of him anymore. We already have cats of our own and he needs a good solid family willing to look after him and give him the love he deserves.

He is neutered and answers to his name. He is black with white fur underneath, it's kinda cool actually. He's definitely a lap cat, he'll cuddle with you all night. We have a spare litter box for him that you may take with him if you are interested. He's a little shy at first towards other cats but he warms up really quick. If interested, please email, thank!
