If you see this guy on any dating sites...do NOT go out with him. He is a drug addict and he meets random women I these sites and has unprotected sex with them. He clearly has no respect for himself and will not have any respect for you. Be safe...remember the next person you sleep with you are having sex with all their partners from the last year...guarantee you he couldn't even count them, let alone name them.

UPDATE- last night he and a woman were posting to meet men in Edinburgh. However I know they were staying in Taylorsville.

This was recently posted on facebook:

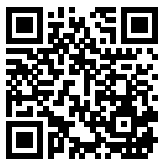

...please read and share...this guy's name is Scott Reed and he is from Nashville, TN. He travels for work, so he is always in different cities and countries...he is on Plenty of fish but he also picks up women (and possibly men) off Craigslist and other Internet sites...beware...do NOT go out with him...he has a family at home in TN but he picks up random people off the Internet (and apparently it doesn't matter what they look like) and has UNPROTECTED sex with them...warn everyone you know...in the short time we dated he had sex with at least 3 other women and one night when I couldn't find him he told me he had been "gang banged by 5 black guys"...this guy is sick and twisted and obviously has no concern for his own life...let alone anyone else...I wouldn't normally post something like this but I feel like I need to get the word
