I'm an experienced producer with a wide style range (pop, dance, hiphop, rap, R&B, EDM, dancehall, reggaeton, dubstep, etc.). If you're a singer and/or rapper looking for radio-ready beats, I have them!

Samples of my work can be found here:

I also write custom tracks to bring your ideas to life. Message me and let me know what style you're looking for.

Let's make some music!
