I have a 1979 Cr 250 elsinore that is a rider or an easy restoration project to make it a conversation piece. The bike has been in storage for about 9 years its time to let it good. I would do 1300.00 for it this is a good price for a complete bike. I also have the first year 1981 for the cr 250r liquid ccoled honda dirt bike. The bike ripped very clean but had an back yard restoration done. Looks good but not a professional restoration by any means. I want \$ 1700 for that bike. Really cool dirt bikes for someone that raced or trail road like me in the 1970 and 1980 time frame. I will consider a package deal cash for both but its taken me 9 years to part with these bikes so I am not giving them away they still have a nice home in a heated garage.
