I'm offering my services in website building. I have created many websites for myself, and I also work with a marketing company on their website and video building. I am offering to build a website for your restaurant, studio, photography business, etc. I have a set fee of \$300, and I add \$100 if you want to add a online store to your website, and you must already have a paypal and a merchant account if you would like an online shop. I'm just building the website to your liking. I am not doing marketing, but I do have recommendations for you if you would like to market your website.
