Our tip of the day:: Secured loans are cheaper than unsecured loans but you run the risk of losing your home if you don't keep up repayments. Secured loans are only offered to homeowners with equity in their property and mean the lender effectively takes a charge on your property. So don't sign-up unless you're 100 per cent sure that you will be able to meet your repayments -- this type of loan is basically less risky for lenders but more risky for borrowers. When it comes to getting a loan , the majority of our loans are for customers with no, poor or eve bad credit....we more than likely can help you..
