

# Pellet stove cleaning (NHVT)

Location

Vermont

<https://www.genclassifieds.com/x-723535-z>

It's time to have your pellet stove cleaned and made ready for the heating season. I have 15 years experience installing these stoves and know them very well. There is more to scooping out the ash. I clean all the hidden ash traps, take the vent apart and clean out your tee and lube moving parts and clean the blowers. If you have a higher end stove, like a Harman, I clean the exhaust probe as well, which is important. Most complete cleanings are \$150 depending on the stove model and distance. If these stoves are not maintained properly they cost a lot more in parts and repairs. If you email me please give me the stove make and model and what town/state you are in. I live in the Walpole area of NH and service NH, VT and parts of MA as well. I also sell venting and chimney liners. I have great prices on liners and shipping is free on standard liner kits. I clean all stoves, but also service Englander pellet stoves. Shoot me an email and please don't just ask me to call you. My reason is because you never know who is emailing you from CL. Once we exchange a few emails and you are interested in having me clean your stove I'm more than happy to give you my number. My name is Rich

I ONLY Clean stoves on weekends. Sorry for the inconvenience.
