

Fitness and Nutrition Help Needed

Location

Delaware

<https://www.genclassifieds.com/x-723782-z>

Over the last 2 years I have worked a successful business helping people get fit, both physically and financially. It's crazy how much those two things go hand and hand. I'm loving what I'm doing but the truth is I need help! There are so many people out there looking to get healthy and looking to get financially fit...I can't do this alone. Now I'm willing to take my business to the Next Level.

I am looking for more people!! People who are looking to change their lives! People that are ready for a change. People who can duplicate what I am doing by following simple systems and making it your own. I am looking for POSITIVE people. Health and fitness background or knowledge is NOT required! Being hard working with a passion to help while helping yourself IS required! You will be working from the comfort of your home, No commute, no traffic.

People with the desire to make a change.

People to inspire, to live, to make a little extra cash, to pay off debt.

People that most importantly want to build their dreams with me.

Please send me your phone number and your email address. Only those ready to work and who are SERIOUS about changing their life need apply.

Thank!
