

Hiring a designerscreen printerproduction for local work.

Location **Minnesota**
<https://www.genclassifieds.com/x-723867-z>

Hello, I have a spot open for a local designer that needs to be filled. The main job of the designer is to design, and produce quality tshirts/posters/etc for many clients around the Twin Cities. If you are unable to do the production part, please still apply. If you are only skilled at production (screen printing/etc) then please apply as well.

More information will be provided. An in-person interview will be conducted prior to choosing the perfect candidate. The perfect candidate will have the following:

- The ability to design a tshirt/poster/coffee mug/etc after being given guidelines by the project manager. You will need up to date design programs at your disposal, this is not hand sketch. The finished product from you should be ready for production or already produced if you have that ability.
- Reliable transportation.
- Reliable communication/timeliness, able to work on generous deadlines.
- A professional attitude. You will be working with high profile clients around the Twin Cities. You will not need to have direct contact with them, but you will be expected to work with a professional efficiency.
- A background in design/advertising/production is preferred but not required. Your work and abilities speak for themselves. If you have never touched this before, but you have a love for art and can get this job done, please apply.

Please send all emails to the registered email address here with a Resume and an attach examples of your work or link to your website/bio. Thank you! Please apply, this is entry.
